Had the pleasure of dealing with Gary at Black River for the last 4 years. He was my go-to tech support guy and helped me out of many a jam (printer pun certainly intended). Dealing with Gary you knew he truly cared, you never felt like a burden, and you always enjoyed how he ended each phone call with an affable, "take care, my friend" even though you had never actually met the man in person. Just got the news today that Gary had passed, so I guess it's my turn to take Gary's line. Take care, my friend. May you rest in peace.

I had the pleasure of working with Gary for the last 26 years. Over this time Gary and I became good friends. He was a generous guy with a big heart, and we all miss him. Had a lot of fun busting his chops over the years. We could have a large, heated discussion about the job then head out get lunch and have a bunch of laughs. Lots of good times and events. He will be missed. God Bless our friend. Condolences to his family and friends.

Gary was a great customer and friend to all at DASCAM Americas. He was passionate about keeping his customers satisfied and happy. He was very dedicated and of course was a huge fan of Ohio State football. He shared many conversations with our team about his beloved Buckeyes and would often call us with the opening statement "OH" to which we felt compelled (if not motivated) to respond with "IO" just for Gary. A great guy and friend who will truly be missed. We send our thoughts and prayers to his family, friends, and colleagues. Gary - this is for you - "OH!"

Gary was an exceptional salesman, technical lead, and most importantly, friend to all the folks at DASCAM Americas. He had a great relationship with his customers, took immense pride in solving problems and forming meaningful relationships with his customers. Gary absolutely LOVED Ohio State football and he shared his college football and sports passion with many of the employees at DASCAM. He represented Black River Computer at the DASCAM Americas kick-off aboard the USS Sequoia Presidential Yacht and spent many years selling our printers and solutions. We all will miss Gary and extend our heartfelt sympathy to his remaining family, friends, and colleagues. As Gary would often say.... "OH," to which we all felt compelled (if not equally as enthused) to reply with "IO." Rest easy Gary and thank you one last time for all you did for us. You will be missed friend!
