Fred I just found out. I remember working with your in the Tacoma office. I came to ask you questions because I was just green out of school. Thank you for helping me out so much. Then when you came to my office I was really honored that you would come see me. Thanks for all the people you've helped. 🙏🙏🙏🙏🙏🙏

Fred, it is with extreme sadness that I found out you are no longer with us. My life was so much more blessed with you in it. I thank the good Lord for your friendship. I am so sorry that we lost touch with each other and it was many years ago that we last spoke but it feels like yesterday when we both met each other in college. Our friendship grew from there. I had you over for Thanksgiving when u couldn't go home and we both jumped out of a perfectly working airplane like the crazy dudes we were. Rest in peace my friend. Til we meet again...

Dr. Fred, I am so sorry to hear you were taken. It has been a long time since we spoke, I remember when you first started at Willamette Lias and I were running the track and you asked if you could run with uss an from then on you were a exercise beast! You were more than a dentist you were a nice guy who we all liked and admired. Rest Easy Fred and peace and prayers for your family.

Fred,I was so saddened to hear the news of your passing. After meeting as classmates in dental school, you quickly became one of my very best friends in life. You had such a passion for life in general, but even more so for sports. We competed in, watched, and breathed every sport we could. You loved your Pittsburgh teams! I'll never forget going to see the Penguins with you and Scinico and almost getting beat up by angry Blues fans. There are too many great memories to list. When I was with you Fred, you made life all the more exciting and fun. I will miss you very much. Thank you for being my friend.

Was shocked to hear the news of your passing. I'll always remember your zest for life and adventurous soul! You were always going, going, going with endless energy. I still have the video of you jumping off the Stratosphere with Nate. You gleefully yelled like a kid as you jumped from 800 feet in the air as I watched you both petrified from below. You truly lived this life. Prayers to your family and loved ones.
